

Prescribing Opioids for Pain Management

Date: April 23

Time: 12:00-1:00pm

Place: Zoom

Trainer/Educator Name: Dr. Michael Gervasi

Registration: <https://bit.ly/2PprJha>

Our goal is to provide prevention education —

— The Mechanisms

Describe the mechanism of action for opioid agonists, opioid antagonists, and mixed opioid agonists-antagonists.

— The Role of the Opioid Receptors

Describe the role of the opioid receptors with regard to their impact on central nervous systems physiology.

— The History of Substance Regulations

Discuss the history of controlled substance regulations in the United States.

Contact Joe Peters for questions or additional information about the training:
